EXPERIENCE

Production Services Technician

Sony Pictures Imageworks

Mar 2026 – Present

Vancouver, BC

- Managed and tracked digital assets across the full production lifecycle for active film productions in a **Linux** environment, maintaining data integrity and security at every stage.
- Coordinated render farm job prioritization across constrained resources, triaging queues from most to least urgent to keep shot delivery on schedule.
- Monitored active ingest and export pipelines, troubleshooting failures and escalating issues to minimize artist downtime.

Production Services Technician Intern

Sony Pictures Imageworks

Jul 2025 – Aug 2025

Vancouver, BC

- Automated repetitive pipeline tasks with **Python**/Linux scripts, reducing manual intervention by **40%** and saving artists **5 hours per week**.
- Resolved **20+** weekly technical issues for artists, cutting average downtime per issue from ~30 minutes to under **10 minutes**.
- Partnered with production and engineering teams to streamline asset delivery, reducing cross-department ticket resolution time by **25%**.

PROJECTS

Self-Hosted Homelab — Personal Infrastructure

2025 – Present

- Designed and deployed a **Docker Compose** stack of **10+ containerized services** on a dedicated Debian 12 server, including a Caddy reverse proxy with automated DNS-01 certificate issuance and **Tailscale**-based remote access.
- Diagnosed and resolved infrastructure issues spanning DNS resolution failures, container dependency ordering, and reverse proxy port conflicts, applying root-cause fixes.

Conscious Connections — Academic Project

May 2025

- Built a full-stack app with an AI-driven compatibility matching engine and integrated coaching, backed by **Node.js (TypeScript)**, **Prisma ORM**, and **PostgreSQL**.
- Engineered a **WebSocket**-based real-time chat system, load-tested to sub-**50ms latency**, and validated core flows with **100+** simulated sessions.

EDUCATION

BC Institute of Technology (BCIT)

Computer Systems Technology Diploma

Jan 2024 - Jan 2026

Simon Fraser University (SFU)

Bachelor of Computer Science Coursework

Dec 2022 – Dec 2023

SKILLS

Languages

Python, Java, JavaScript, TypeScript, C++, HTML, CSS, YAML

Frameworks/Tools

Node.js, Next.js, Docker, React, Tailwind CSS, Prisma, Git, Figma

Databases

PostgreSQL, MongoDB, Firebase, SQL
