EXPERIENCE

Production Services Technician

Mar 2026 – Present

Sony Pictures Imageworks

Vancouver, BC

- Managed and tracked digital assets across the full production lifecycle for active film productions in a Linux environment, maintaining data integrity and security at every stage.
- Coordinated render farm job prioritization across constrained resources, triaging queues from most to least urgent to keep shot delivery on schedule.
- Transferred multi-GB data packages to partner studios and vendors, upholding strict delivery accuracy and confidentiality standards.
- Monitored active ingest and export pipelines, troubleshooting failures and escalating issues to minimize artist downtime.

Production Services Technician Intern

Jul 2025 – Aug 2025

Sony Pictures Imageworks

Vancouver, BC

- Automated repetitive pipeline tasks with Python/Linux scripts, reducing manual intervention by 40% and saving artists 5 hours per week.
- Resolved 20+ weekly technical issues for artists, cutting average downtime per issue from ~30 minutes to under 10 minutes.
- Partnered with production and engineering teams to streamline asset delivery, reducing cross-department ticket resolution time by 25%.

PROJECTS

Conscious Connections — Academic Project

May 2025

- Built a full-stack AI-driven dating app integrating compatibility algorithms and AI-powered coaching with pre-loaded ChatGPT threads personalized to users, tested with 100+ simulated sessions.
- Engineered a WebSocket based chat system with <50ms latency under load testing, enabling seamless real-time communication.
- Built backend with **Node.js (TypeScript)**, **Prisma ORM**, and **PostgreSQL**.

Golden Gaming — Academic Project

May 2024

- Created a web-based gaming platform tailored for seniors, incorporating larger UI elements and simplified navigation, validated through usability testing with peers simulating accessibility constraints.
- Added JavaScript-based interactive games with progress tracking, increasing engagement time per session by 35% during testing.

EDUCATION

BC Institute of Technology (BCIT)

Expected Dec 2025

Computer Systems Technology Diploma

Simon Fraser University (SFU)

Dec 2022 – Dec 2023

Bachelor of Computer Science Coursework

Completed: Data Structures & Algorithms, Discrete Mathematics, Linear Algebra, Probability & Statistics

SKILLS

Languages

Python, Java, JavaScript, TypeScript, C++, HTML, CSS, YAML

Frameworks/Tools

Node.js, Next.js, React, Tailwind CSS, Prisma, Git, Figma

Databases

PostgreSQL, MongoDB, Firebase, SQL
